

WHAT TO BRING

You will be living at camp for three months, so be sure to pack accordingly. It is helpful to use plastic totes, drawers, or crates to store your things. You will be sleeping in a bunk bed, and your storage space will be under and alongside this bed. It is also quite likely that you will move locations several times during the summer, so pack in a way that is easy to unpack/repack as needed. Please feel free to bring some personal items along (books, computer, games, etc.) for your time off; however, realize that any belongings inappropriate for a camper to see or use must be kept in your vehicle during the week. It is hard to describe exactly what living at camp looks like, but it is unique, and you'll need more than you might think. Here is a packing list of essentials. You may look at some items and think, "I don't need that." Trust us...you will.

CABIN ESSENTIALS

- Pillow, sleeping bag, AND sheets
- An extra blanket
- 1 or 2 stuffed animals
- Alarm clock (phones not allowed)
- Personal or floor lamp
- Several bandanas
